

# H-Blockx, Time To Fight

My name is MC-H on an H-Blockx mission  
We're playing a song about nuclear fission  
An instrument of war and a source of energy  
People do not see that it's our enemy  
The people in Iran and Mr. Bush and the states  
Is what Saddam in Iraq just hates  
So stand up everybody  
Come stand up for your rights  
I'm telling you the truth it's time to fight

Chorus:

T-I-M-E T-O (time to)

F-I-G-H-T (fight)

TIME TO FIGHT

The nuky weapon in the hand of the wrong dude  
Can cause the people in the world a bitter pain  
Tshernobyl and Harrisbug is what people have seen  
Sadly only broadcast on the TV-screen  
Because if all mankind knew what this was all about  
They would gather all together to cry and shout  
So stand up everybody  
Come stand up for your rights  
I'm telling you the truth it's time to fight

Chorus

It has got to be the duty of all men  
To protect us from desatsters as good as they can  
This is to all political leaders all over the world  
To make us that nature isn't hurt  
I know we need that shit to keep us warm  
But the fact that this risk can do us harm  
Makes me think that it's time to pray  
To let God find us anotherway

Chorus
