

H-Blockx, Wish

I wish you could find your little peace of mind
I wish you would try to overcome your self-denial
I wish that one day you'll come and make me say
I swear, I can fly, I will take you to the sky

yeah, yeah
what can I do for you my son?
I'll grant you any wish you want
what can I do for you my son?
I'll give you everything I own

hey

I'll pick the stars out of the sky
and make a necklace for your smile
I'll sail the seas to make you trust in me
I'll walk from here to eternity
to become the man you are for be
I wish you could fly, to take me to the sky

what can I do for you my son?
I'll grant you any wish you want
no need to prove to you my son
I'll give you anything I own

what can I do for you my son?
I'll grant you any wish you want
what can I do for you my son?
I'll give you anything I own
