

# H Two O, Bootstraps

I got your bootstraps, I'll pull you up and won't think twice  
And you can take it as advice, we've got to help each other out  
Cause that's what this is all about  
And how the f\*\*k can we forget, how we got here today, no way  
Now it's time to make it clear, that we would not have made it here  
Without the ones who pulled us up, taught us how to make it work  
And if you ever get the chance to change somebody's circumstance  
I hope you know what you should do  
Cause that shit will come back to you  
I got your bootstraps, I'll pull you up and won't think twice  
And you can take it as advice, we've got to help each other out  
Cause this is how we all survive and we're never gonna stay alive  
Without each other there's no way, no way
