

# H2O, Everready

Try but you can't bring me down  
Try but you can't let me  
Try but you can't bring me down  
Try

I've come too far now  
To ever close my eyes  
Made my mistakes  
And I wear no disguise  
I speak my mind and let the rumors  
Twist the worlds around  
Some try so hard, but no one gets me down

I get so stressed out  
I keep running out of time  
I'll do my best to make  
A better life  
I feel your doubt and I don't even  
Wonder why  
Got it figured out  
All I have to do is try

When times get tough, I'll rise above  
Can't get me down, no you can't  
Let me down, I made my mistakes  
Wear no disguise, I've come too far now  
To ever close my eyes
