

# H2O, Follow The Three Way

Never really been into religion  
Never gave a fuck about superstition  
But such strange things are happening  
First once, then twice, then once again

Never really thought we'd reach a third one  
Still there are those who haven't heard one  
So we still have such a mission  
Our trilogy must have tradition  
Then once, I could not believe, even twice I was still naive  
In my heart, in my head, these words are said

I don't care what you say, I'll follow the three way

I've never been into science fiction  
So I guess this is a contradiction  
Or is it just numberology but hey it's looking out for me
