

# Hades Almighty, Diplomatic Immunity

You get away with murder  
Self-righteous in a foreign land  
It must be quite an intense feeling  
To have an entire nation in the palm of your hand  
Your rights are so wrong  
An insult to every citizen  
We're all subject to this injustice  
Your immunity must meet its end!

If you're to live here, you can't live above the law  
Doesn't that make sense?!  
Yet you do, what good then is democracy for  
If we're not all equal?!

Yeah, I know you only work here  
But I know what your job entails  
Go maintain relations from your homeland  
Just use a phone or try the mail!  
Get out of our hair!
