

# Hades Almighty, Resist Success

Defeat our purpose  
But just which fate is worse?

How long can we go on?  
We cannot sell ourselves  
We'll take it on our terms  
No easy path to resist success  
You sell out, cash flows in  
Your sickly glitter grin

You've only got one chance  
To take it all the way  
Relax, don't go so fast  
Why get so carried away?  
Resist, now don't tell me what to do  
Success, I'll never ever leave it up to you

We may not change the world  
Who said we wanted to?  
Don't curse in ignorance  
Fearful of something new  
Oh, open up your mind  
Success is self-defined  
Do what your heart commands  
Despite what they demand  
Resist Success  
Resist Success  
Don't stay within their lines  
Don't scramble for the dollar signs  
They'll find you if you're deserving  
If your course is unswerving  
Outweigh the possibility  
Of market stability  
You are the path to resist success
