

Hagen, Sweet Tender Sofie

Sweet tender Sofie

Tell me what you're doing to me

I hear your voice clear and loud

I see your face in every cloud

Is there anything I can do to get through to you

Is there anything I can say anyway

Oh girl I think you know that I love you so

Oh girl I think you know that I love you so

Sweet tender Sofie

I'm a fool for your loving can't you see

You break my heart but I kind of enjoy the pain

Oh pretty baby you're driving me insane

Is there anything I can do to get through to you

Is there anything I can say anyway

Is there anything I can do to get through to you

Is there anything I can say anyway

Oh girl I think you know that I love you so

Oh girl I think you know that I love you so
