

# Hail Social, Track Number 1

You try  
If you try anything  
Never speak  
Say a thing  
Never try  
All the words  
Tap them out  
Hesitate  
Never mean what you say  
It turns out  
That you couldn't reach anyone, now you know  
That you're out of touch  
Out of time  
Let it go  
But you can't help feeling what you're missin' out  
So we go through this again  
Worry 'bout the other side  
Cause the other side's worried now  
Can't we?  
Worry 'bout the other side  
Cause the other side's worried now  
Can't we stop?  
It turns out  
That you couldn't reach anyone, now you know  
That you're out of touch  
Out of time  
Let it go  
But you can't help feeling what you're missin' out  
So we go through this again  
And you couldn't reach anyone, now you know  
That you're out of touch  
Out of time  
Let it go  
But you can't help feeling what you're missin' out  
So we go through this again
