

# Halestorm, The Steeple

It stopped raining  
In my head today  
I finally feel like myself again  
Redemption's here at last  
Back where it all began  
In the place where god and the devil  
Shake hands

This is my kingdom  
This is my cathedral  
This is my castle  
These are my people  
This is my armor  
This is my anchor  
It's been a long road  
Outta hell up to the steeple  
For this is my church  
And these are my people

A choir's singing  
In my heart today  
(whoa)  
Like a thousand angels  
Breaking the silent parade  
To the ones i call my own  
I'm back where i belong  
In the place where god and devil  
Call home

This is my kingdom  
This is my cathedral  
This is my castle  
These are my people  
This is my armor  
This is my anchor  
It's been a long road  
Outta hell up to the steeple  
For this is my church  
And these are my people

This is my kingdom  
This is my cathedral  
This is my castle  
These are my people  
This is my armor  
This is my anchor  
It's been a long road  
Outta hell up to the steeple

This is our church  
You are my people  
This is our church  
This is our steeple  
This is our church  
You are my people  
This is my church  
This is my steeple  
This is my church  
This is my steeple
