

Half-Handed Cloud, Let's Build A Planet

Let's build a planet, God.
The plan's right here,
It shouldn't take too long.
Follow the instructions.

We'll build the trees two days before
The oxygen, so when they're bored,
Breathe nice and easy.

Then we'll arrive, and colonize.
Some say that's nice,
Some say it's perfect.

On the last day,
When the week ends,
We'll take a break,
And start again.
