Halford Rob, Heretic

The way you look at me Feel all your hatred building I won't be what you see A nation built for killing The color of the skin Dividing church's saviors The wars that you begin Reflect in your behavior We live and die From all this isolating We live and die When we stop procreating Genetic blasphemy Resisting devastation Corrupting heresy To save the population We live and die From all this isolating We live and die When we stop procreating We live and die To generate existence We live and die A life line of persistence We live and die And all we feel is sadness We give and try Mankind embraces madness We live and die And all we feel is sadness We give and try Mankind embraces madness
