## Halford Rob, Night fall

Your love is killing me, it draws me to the dark Your veil of ecstacy, that leaves the telling mark The spell you cast inside, is stabbing through my heart It reaches deep within, it's pulling me apart Night Fall, you take my soul Night Fall, you're in control Your love's still haunting me, it draws me into black Your veil of fantasy, won't let my soul come back The spell has taken all, I can't release my mind I've lost my heart to you, you're too cruel to be kind. Night Fall, you take my soul Night Fall, you take my soul Night Fall, you're in control Night Fall, I called you and you came Night Fall, I'll never be the same
