

# Hall & Oates, I Want To Know You For A Long Time

F-ing short the loving lasts  
I can't mix the future with the past  
Can I stay close to you  
I wanna stay close to you

You've got yours and I've got mine  
And what we have in so hard to define  
Just take a look at your life line  
You've got a lot to shine  
Let's say baby,  
I wanna know you for a long long time  
Ooh baby  
I wanna know you for a long long time

Oh darling, lady friend  
We'll see each other when it's time to show  
Just for a minute or for a year  
But then again, don't you and I know

A time between our time together  
It doesn't exist, it grows old forever  
Just take a look at your life line  
Ob baby, you've got a lot to shine  
I know it baby,  
I wanna know you for a long long time  
Ob and baby,

I wanna know you for a long long time  
I wanna know baby, I wanna know baby  
Oh you've got a lot to live girl  
So I wanna know you for a long long time  
I wanna know, I wanna know,  
I wanna know baby  
So much to live for girl,  
So much to live for girl  
So I wanna know you baby  
Wanna know you for a long long time.  
I wanna know, wanna know ...

(etc. and fade)
