

Hall & Oates, Love In A Dangerous Time

In the of heart the country
There's a killer without a gun
We're afraid to be
No longer free
Just for loving one
So I, I got to say say a prayer for you

In the heart of the darkness
There's a killer without a name
No where to hide
No mountain side
Cause it is all the same
So please (oohhh please)
Say a prayer a prayer for me (ohohoh)

Out of the dark and silence
How in the world will we survive (we survive)
Love in a dangerous time
Out of the fear and madness
How in the world will we survive (we survive)
Love in a dangerous time

In the heart of the children
Where the simple things are true
So much to learn
When the world is turned turning in on you
Oh and I (oh and I) show us what to do (what to do what to do)

Out of the dark and silence
How in the world will we survive (we survive)
Love in a dangerous time
Out of the fear and madness
How in the world will we survive (we survive)
Love in a dangerous time

If I don't wait
Through open doors
Lie to what reseems before us
Fools who make the rules
Commit the crimes (commit the crimes)
That lay it on the line

Out of the dark and silence
How in the world will we survive (we survive)
Love in a dangerous time
Out of the fear and madness
How in the world will we survive (we survive)
Love in a dangerous time

Out of the dark and silence
How in the world will we survive (we survive)
Love in a dangerous time
Out of the fear and madness
How in the world will we survive (we survive)
Love in a dangerous time
