

Hall & Oates, Love Out Loud

I like this room

It's got me

Dancin' down and dirty on my knees

Get lit up

Tell those lies

Wicked enough to melt your ice

I can see baby

Touch on me

I can see most any possibility

Got to do it. Got to use all my love

Too much is never enough

You've got to sing out

You've got to sing out

You've got to sing out

Sing Out Sing Out

Chorus:

Love out loud

Tell me what you wanna do

Love out loud

You've got to love out loud

Don't look down

Tell me what you wanna do

Love out loud

Got no time

Time to choose

Wait a second now you're gonna loose the mood

Got to do it

Got to use all your love

Too much is never enough

You've got to sing out

You've got to sing out

You've got to sing out

Sing Out Sing Out

Chorus:

Love out loud

Tell me what you wanna do

Love out loud

You've got to love out loud

Don't look down

Tell me what you wanna do

Love out loud
