

# Hall Tom T, Never Having You

I guess I'll go through life never having you  
I guess I'll go out of this world never having you

There's no way for me to love you  
At this late day it wouldn't be the same  
There's no way for me to win you I'm  
So far behind it's so late in the game  
I know I'll go through life never having you  
I guess I'll go out of this world never having you

I'll go through life never having you  
I guess I'll go out of this world never having you

I must believe in reincarnation  
I got to have another chance with you  
You're wrapped up in your situation  
You are music and I'm so far out of the tune

I guess I'll go through life never having you  
I guess I'll go out of this world never having you

I get mad when I think about it  
I know I'm a free thinking fool  
This hunger is eatin' my heart out  
I'm a lunatic and you are so super cool

I guess I'll go through life never having you  
I guess I'll go out of this world never having you
