

Halloween, Alaska, You're It

Well hello little hellion
Make yourself at home
Unpack and I'll just hush
The clutter in the living room
That's another thing
Where we both see
Never touch

You're it
The silver on a little cloud
You're it
And this is the shit that I've been talking about
You're it
The sickness in a thinning crowd
You're it
And this is the shit that I've been talking about

Oh little pretty silhouette
where did we go wrong?
A hundred habits come and gone
But your artificial skeleton
Doesn't frighten me
At least its strong (at least its strong)

You're it
The silver on a little cloud
You're it
And this is the shit that I've been talking about
You're it
The welcome and the wearing out
You're it
And this is the shit that I've been talking about
