

Halo, Cracked

Cracks inside following close
Still I never could live
Without protection

Cracks so clear
Hoping it brings you near
Turn me to dust
Your sweet complexion

Crawl for now
Things will be clear somehow
Everything turns so fast
It's broken

You can change anything
You can fix everything
You can breathe
I'm choking

That's someone else
I wish I was now
Confide in me
These words that somehow
Shake your breathing
Soak through us all
And it's taking me over
And it brings me to you

Crawl for now
Things will be clear somehow
Everything turns so fast
It's broken

You can change anything
You can fix everything
You can breathe
I'm choking

That's someone else
I wish I was now
Confide in me
These words that somehow
Shake your breathing
Soak through us all
And it's taking me over

And it's taking me over

And it brings me to you

Cracks inside following close
Still I never could live
Without protection
