

Halou, Drive

Asleep in the house
With cars that drive by
Roll on to your destination

As we kick up dust
Into the evening sky
Roll on to your destination

And what would you do
If i could follow

Will you drive by here tomorrow
Can you see me in the sky
If i could pick one car to follow
Do you think you'd mind

My pillow thinks
About as much as i
And we wonder where you're going

And the cars keep coming
In an endless supply
Why are you all in such a hurry

If i could you know i'd follow you
I don't care who you are
