

Halou, No One Else Will Sing To Me

Don't be frightened
When you're with me
They can't hurt you
You're in safety
When you're with me

Please don't be afraid

They can't hurt you
When they hear me
They can't reach you
Can't pass through me
When you're with me

Please don't be afraid

And i know
They cast a spell on you
To make you think
You weren't right
You'll be alright
