

Hammerfall, Fury Of The Wild

Sighs - The fury has electrified my mind

Sighs - The hatred burns inside by the mark of vengeance I will grind

Sighs - The sound of metal falling to the ground

Sighs - By blood we will unite by blood we are forever bound

Vengeance calling me

Oh, please set me free

The Fury of the Wild

Locked up in this cage

Can't you feel the rage?

The Fury of the Wild

Sighs - Your silence will not sanctify your crime

Sighs - When revolution calls I will be the first in line

Vengeance calling me

Oh, please set me free

The Fury of the Wild

Locked up in this cage

Can't you feel the rage?

The Fury of the Wild

Now as you stand on your own

With the future, face to face

Take a look at me now

Feel the fury, taste my rage

Come taste my revenge

Unbent - Unbowed - Unbroken

Vengeance calling me

Oh, please set me free

The Fury of the Wild

Locked up in this cage

Can't you feel the rage?

The Fury of the Wild
