

Hammerfall, Legacy Of Kings

Out in the fields
the full moon is rising
Enlightens the name on our shields
blessed with pride

Steel on our side
we horsemen of thunder
The ground starts to shake as we ride
side by side

Storm-bringer lead us into the unknown
On wings of glory we will carry on

Legacy of Kings LEGACY OF KINGS
forever to survive, we're
Riding on the winds riding on the winds
unchained and free, alive forevermore

Deep in the night
we circle around them
The honor compels us to fight
all for one

All hewed with steel
in the toil of the battle
Our enemies fate will reveal
and be sealed

The chill of the wind keeps on calling our names
there's no turning back now, keep hold of the flame

Legacy of Kings LEGACY OF KINGS
forever to survive, we're
Riding on the winds riding on the winds
unchained and free, alive forevermore

Now we are here
and there is nothing left to fear
The secrets of steel
the path of glory will reveal

Legacy of Kings LEGACY OF KINGS
forever to survive, we're
Riding on the winds riding on the winds
unchained and free, alive forever

Legacy of Kings LEGACY OF KINGS
forever to survive, we're
Riding on the winds riding on the winds
unchained and free, alive forevermore
