

# Hammerfall, On The Edge Of Honour

Led by temptation into the underworld  
to absence of season and time  
Soldiers of Fortune, Soldiers of the Night  
back to back, ready to fight

Enchanted gardens, where Evil slipped away  
through darkness, fire and rage  
Uncanny demons will dance upon your grave  
as soon as you become their slave

Surrender or fight, there's nowhere to turn  
The Bringer of Light, where are you now  
Forever our hearts will burn

Immortal Riders, Protectors of the Earth  
lost in the abode of the dead  
Misled through darkness and misled by desire  
inside the midst of the fire

Surrender or fight, there's nowhere to turn  
The Bringer of Light, where are you now  
Forever our hearts will burn

Fallen Angels, arise from your graves  
Free your spirits and unite  
before the blood of the Unicorn colors the night  
From the ruins of hell we shall rise  
On The Edge Of Honour we see the light  
of the Unicorn soaring the night

Lead: both

Born to conquer the fight,  
here we stand with the Future in our hands  
Through fire we'll rise to touch the sky

Solo: Stefan

Ooh, ooh, ooh...

Seeker of danger, is turning to withdraw  
Our journey has come to an end  
Lets stand together put trust in thy sword  
Victory will marching toward

Surrender or fight, there's nowhere to turn  
The Bringer of Light, where are you now  
Forever our hearts will burn

Fallen Angels, arise from your graves  
Free your spirits and unite  
before the blood of the Unicorn colors the night  
From the ruins of hell we shall rise  
On The Edge Of Honour we see the light  
of the Unicorn soaring the night
