

# Hammerfall, (r)Evolution

Heed the words, my son  
Here is where my journey ends  
I pass my legacy, for you to carry on

You are the future, I am the past  
These words of wisdom might be my very last

The insurrection will show your direction  
After years of deceit  
The future's in deadlock the peal of the death clock  
A red-blooded brick in the wall

Retrogression here in Neverland  
Carry through Utopia

(r)Evolution - Rise and resist  
(r)Evolution - Fight to exist  
(r)Evolution - A wrecking ball  
(r)Evolution - Free for all

Years of oppression, dark agony  
No evolution, the unborns dim destiny

Retaliation unite our nations  
All give heed to the call  
You're the selected, preferred and elected  
a red-blooded brick in the wall

Waive your banners here in Neverland  
Speak up for Utopia

(r)Evolution - Rise and resist  
(r)Evolution - Fight to exist  
(r)Evolution - A wrecking ball  
(r)Evolution - Free for all

Cuz no sticks and stones  
Could ever break my bones  
Nor their words  
Could ever quench my soul

(r)Evolution - Rise and resist  
(r)Evolution - Fight to exist  
(r)Evolution - A wrecking ball  
(r)Evolution - Free for all

(r)Evolution - Rise and resist  
(r)Evolution - Fight to exist  
(r)Evolution - A wrecking ball  
(r)Evolution - Free for all
