

# Hammerfall, (We Make) Sweden Rock

I remember the day when the winter came  
Back in nineteen-sixty-nine  
With hearts made of stone, they paved

A solid one way to glory  
The roar from the north shook the universe  
Right out of its solitude  
The sign of the times, they said  
As we praised the birth of our story  
The power inside, our source of creation  
Far beyond the sun they hear our singing swords

Sweden Rock (We Make)  
Sweden Rock  
Bringing the hammer down  
Three are the crowns in our banner

They were breaking the chains long before the storm  
Play Judas, to get along  
The traitors and renegades  
Smoldered the soil of our fathers  
Now lay down your guns raise the hammers high  
Together we are one  
A true life worth fighting for  
'Cause this ain't no dying illusion  
A call from the grave where flames are eternal  
In the land of fog and mist we carry on

Sweden Rock (We Make)  
Sweden Rock  
Bringing the hammer down  
Three are the crowns in our banner

(We Make) Sweden Rock  
(We Make) Sweden Rock  
Sons of the northern light  
Forever let your strings cry out
