

Hana Pestle, Just a Phase

enchanted by the light
it even took me by surprise
you
thought i lost myself
but maybe i found myself
but i'm still the girl you
always knew
you blame me
but maybe
it's just a phase
hopefully it will
be unchanged
we've gone a long way
but we'll always stay the same
you
built a wall of shattered glass
such a blurry view
you tried to isolate
i
tried to insulate
are you still the girl i always knew
you blame me
but
maybe
it's just a phase
hopefully it will be unchanged
we've gone a long
way
but we'll always stay the same
and i wish you would care
i was always
right there
it's just a phase
hopefully it will be unchanged
we've gone a
long way
but we'll always stay the same
