

Hana Pestle, Together Forever

i could not hide cause he knew me
he looked right
through me
when i looked away and i held on
but inside i felt my needs
i could not breath i could not think
as i faded away...
well, you love me,
and you need me
and we'll always be together forever
then the leaves fall
and snow comes
our hands warm the others
i could not see anyone around me
as my eyes were cloudy...
well, you love me, and you need me
and we'll always
be together forever
well, i love you and i need you
i don't don't feel the same
but i don't know what about
and i just feel cloudy
like i don't know
anything anymore, anymore, anymore, anymore...
well, you love me, and you need me
and we'll always be together forever
well, i love you and i need you
