

Hank Locklin, Livin' Alone

(Living alone living alone)

I may be wealthy with more than my share I may be able to go anywhere
I may own a kingdom and sit on a throne still I'll be lonely while I'm livin' alone
I can follow the bright lights keep a smile on my face
I can travel this whole world but not get any place
I need you near me to stick by my side
Please give me true love and don't shatter my pride
If you should leave me all the dreams I have known
Will never come true while I'm livin' alone

[guitar]

I need you near me...
