

Hank Snow, Adios Amigo

Adios amigo adios my friend
The road we have traveled has come to an end
When two love the same love one love has to lose
And it's you who she longs for it's you she will choose

Adios compadre what must be must be
Remember to name one muchacho for me
I ride to the Rio where my life I will spend
Adios amigo adios my friend
[guitar]
Adios compadre let us shed no tears
May all your mananas bring joy through the years
Away from those mem'ries my life I must spend
Adios amigo adios my friend
