

# Hank Snow, Christmas Cannonball

From up the frozen northland, to the bitter covered clime  
Theres a train that comes a rollin' every year at Christmas time  
All the kids are in their glory, when the snow begins to fall  
cause they know its bringin' Santa Clause and the Christmas Cannonball

It takes from the North Pole, with a jingle and a roar  
its partly run by reindeer, till it gets to Baltimore,  
If you hear the cry of timber coming out of Montreal  
You can start to look for Santa Clause and the Christmas Cannonball

Its loaded down with nice things  
from a doll to fancy toys  
and its bringing all the presents  
to the good little girls and boys  
so listen to your mothers  
do the things she wants you to  
if you can't be good till christmas  
then its just too bad for you  
take it easy with your cryin'  
and be careful one and all  
cause its almost time for Santa Claus  
and the Christmas Cannonball
