

Hank Snow, Crazy Little Train Of Love

I never saw the world lookin' so bright
Never saw the wheels turnin' so right
And I'm glad to be ridin'
This crazy little train of love

I'm just like a kid on a merry-go-round
I'm so high in the clouds, I hope I never come down
And I'm glad that I'm ridin'
This crazy little train of love

(Chorus)
Our train don't carry the blues
No room for hurtin' or any bad news
Our train is just loaded with love
Just you and I, and that's enough

It just keeps a-chuggin' on down the track
We're so in love, we don't want to look back
Aren't you glad that we're ridin'

This crazy little train of love

I see our destination just over the hill
Cozy little place that they call Arborsville
Aren't you glad to be ridin'
This crazy little train of love

The wheels sing the song as they roll down the track
They seem to say I love you with each clickety-clack
Aren't you glad that we're ridin'
This crazy little train of love

(Repeat chorus)

It just keeps a-chuggin' on down the track
We're so in love, we don't want to look back
Aren't you glad that we're ridin'
This crazy little train of love
