

Hank Snow, I Knew That We'd Meet Again

Though we said goodbye and drifted far apart
I knew that we'd meet again
Though you left my arms you never left my heart
I knew that we'd meet again

CHORUS:

Lover's lane was not the same with someone new
How could lover's lane be the same without you
Here we are together prayers were not in vain
I knew that we'd meet again

SPOKEN:

One word was spoken and our two hearts, they were broken
Our love, it had all gone astray
That old pride drew a curtain but honey,
You know, I was certain
That we'd meet again some sunny day

True love may sever though it will ever live on in memory
And though honey we were parted and so broken hearted
I knew someday you'd come back to me

CHORUS:

Lover's lane was not the same with someone new
How could lover's lane be the same without you
Here we are together prayers were not in vain
I knew that we'd meet again
