

Hank Snow, I Saw A Man

Last night I dreamed an angel came he took my hand he called my name
He bid me look the upward way, I saw a man... I heard him say
He said if I'd be lifted up I'll draw all men to me
He turned and then I saw the nail scared hands that bled for me
(I touched the hem of his garment that fell round him there)
My heart, my soul, my all... I left there in his care
[guitar]
When I awoke my heart beat slow and in the dark I saw a glow
It was no dream he came my way...I turned and heard my Saviour say
He said if I'd be lifted up...
