

Hank Snow, I've Forgotten You

I've forgotten you I know that's true
Except when it's raining or when there's sun
I don't remember you you never make me blue
Except when I'm all alone or with someone

I've forgotten you I know that's true
Except when it's night time or when it's day
I don't remember you you never make me blue
Except when I'm lonely or when I'm gay
[fiddle - guitar]
I never think of you you'd never make me blue
Except when you're on my mind and dear that's all the time
I've forgotten you and I've found someone new
I don't remember your little lies
I've forgotten you I know that's true
But I can't explain to you these teardrops in my eyes
