

Hank Snow, It's You Only You That I Love

[with Anita Carter]

We met in the garden of roses one night when the moon was new
We kissed as the breeze whispered through the trees
I love you I love only you

You're as sweet as the dew on the roses true as the new moon above
Forever and ever my darling it's you only you that I love

[fiddle]

We promised to meet in the garden again when the moon was new
But they came between all our hopes and dreams
The heaven was lonely for you
Now I walk alone in the garden each night when the moon is new
And I cry as the breeze whisperes through the trees
I love you I love only you

My tears make the dew on the roses blue as the new moon above
Forever and ever my darling it's you only you that I love
