

Hank Williams Jr., I'll Follow You Up To Our Cloud

I've been told my days are numbered soon Mother Earth will claim me for her own
But I won't go we've just started and I just can't leave you here all alone
So my life must go on living my heart must keep on beating true somehow
I'll let go when you leave me then I'll follow you on up to our cloud

[piano]

My arms will hold you all your lifetime my love for you will always keep them strong
I'll let go when it's your time and you'll never be alone for very long
Then my life can stop its living my heart can stop its beating and rest now
Then I'll let go cause you'll be with me and I'll follow you on up to our cloud
Yes I'll follow you on up to our cloud
