

Hank Williams Jr., I've Loved You All Over The W

(I've loved you all over the world)

I've loved you all over the world in every place I've been you were with me and then

There never was anyone but you sweet girl I've loved you all over the world

You still share my pillow each night pressed so close to me sharing each memory

You still keep my mind in a whirl sweet girl I've loved you all over the world

Carolina Virginia California to Maine from New York to Texas the feeling remains

City sidewalks and each country lane sweet girl I've loved you all over the world

[piano - strings]

(I've loved you all over the world)

Carolina Virginia California to Maine...

I've loved you all over the world sweet girl
