Hank Williams Jr., I've Loved You All Over The W

(I've loved you all over the world)

I've loved you all over the world in every place I've been you were with me and then There never was anyone but you sweet girl I've loved you all over the world You still share my pillow each night pressed so close to me sharing each memory You still keep my mind in a whirl sweet girl I've loved you all over the world Carolina Virginia California to Maine from New York to Texas the feeling remains City sidewalks and each country lane sweet girl I've loved you all over the world [piano - strings]

(I've loved you all over the world)
Carolina Virginia California to Maine...
I've loved you all over the world sweet girl
