

# Hank Williams Jr., Is This Goodbye

Well you say we are through and for me to me move on  
But tell me sweet mama will you cry when I'm gone  
Are you sure you mean it when you tell me to fly what I want to know is this goodbye  
Oh after I leave you will you follow me around fightin' and fussin' all over this town  
Are you gonna be happy or will you cry what I want to know is this goodbye  
Now you know you've said this many times before  
When your money runs out you're bangin' on my door  
Are you gonna be good or try to black my eye what I want to know is this goodbye  
Like a stubborn mule you always change your mind  
Will the weather be fair or will it rain all the time  
Will the lightenin' strike when me'n my blonde walks by  
What I want to know is this goodbye  
Now baby you know I always aim to please for I want your little heart to be at ease  
I don't want no dynamite fallin' from the sky what I want to know is this goodbye
