

# Hanna Berglund, When The Snowflakes Fall

When it's cold,  
and your heart calls for me,  
and you have nowhere else to go  
Just remember when the first snowflakes falls  
to keep on walking with my trust in your hand

And I will never leave your side  
And I will never elt you down  
When the snoflakes falls

You have guide(d) me through the hard as nice  
and you have learned me to walk with pride  
And all those memories,  
and all those years we shared together  
will never leave

'Cause we will never break theese band  
And I'll save your smile in the probe of my hand  
ooh

you are my sister,  
yes you are,  
you are my sister

'Cause we will never break theese band  
And I'll save your smile in the probe of my hand
