

# Hanna Pakarinen, Don't Hang Up

I really wanna know what you're gonna do  
'cos I can't wait around for you  
Whenever you run from the conversation  
You never slow down to communicate

I'm saying hey yeah  
(I don't understand)

Don't hang up on me now  
Hey you gotta tell me more  
Don't hang up on me now  
Give a little bit, give a little-  
...don't do it

Drop another dime and waste another minute  
I've been on hold since yesterday  
You talk about love and now you're in it  
Why do you sound so far away

Don't hang up...

Goodbye is the knife  
And you're cutting me off  
If you can't learn to talk  
What's the point of the call?

If you disconnect the telephone  
You'll only hear a lonely dial tone  
A busy signal can't make love to you
