

# Hanna Pakarinen, Paralyzed

I put my heart, my emotions on the line  
That's my crime  
I didn't know it could hurt this way so  
The mistake is mine  
Try to fly but I'm left with broken wings  
Fighting bitter winds  
Someone tell me I'm dreaming  
Tell me anything  
I used to think we had it all  
But all this thinking is a waste of precious time  
Now I'm breathless, now I'm frozen (frozen)  
And everyday turns into restless nights  
You left me breathless without warning (warning)  
Because of you I'm cold inside  
Paralyzed  
They're saying keep moving forward don't look back  
Stay on track  
But I'm finding it had enough to face the facts  
I used to think we had it all  
But all this thinking is a waste of precious time  
Now I'm breathless, now I'm frozen (frozen)  
And everyday turns into restless nights  
You left me breathless without warning (warning)  
Because of you I'm cold inside  
Paralyzed  
Paralyzed  
I put my heart, my emotions on the line  
That's my only crime  
And now I'm breathless, now I'm frozen (frozen)  
And everyday turns into restless nights  
You left me breathless without warning (warning)  
Because of you I'm cold inside  
Paralyzed...
