

# Hanoi Rocks, M.C. Baby

(Well) my baby's hot  
I mean the way she rocks  
Gives her old folks a shock  
The way she burns her wheels  
Down her home town streets  
My my my my my little motorcycle baby  
My baby is mean  
She's the fastest chick  
That I've ever seen  
Though she's only sixteen  
She knows how to use her machine  
And she's so mean  
She's sweet sixteen, a leather queen  
You should see her streakin' down the street  
All the boys are jealous  
But they don't dare to tell it  
To my my my my little motorcycle baby  
On a Saturday night  
She goes out for a fight  
She beats them black and blue  
I don't mean she's cool  
But she's so cruel  
And she's no fool  
No one can stop her  
And no one can rock like my little motorcycle baby  
my little motorcycle baby  
my little motorcycle baby  
Baby, baby, baby, ride on, ride on  
Could've given her time,  
The best years of my life  
Wanna give her everything money can buy  
could've given her love and a whole lot more  
could've give her everything money can buy  
My baby is hot, I mean the way she rocks  
Gives her old folks a shock  
The way she burns her wheels down her hometown street  
My, my my my my my my my my little motorcycle baby  
My baby, my baby, my baby
