

# Hanson, As Surely As The Sun

As surely as the sun rises each day  
So my love will never change  
And though the years may come and go  
My love will only grow and grow

Sometimes I wonder what you see in me  
'Cause I'm only a man flawed in so many ways you see

I want to share every moment of the day with you  
And I want to share every sunset and every sunrise  
and every moonlit night

'Cause as surely as the sun rises each day  
So my love will never change  
and though the years may come and go  
My love will only grow and grow

Sometimes I wonder what you see in me  
Cause I'm only a man flawed in so many ways you see

'Cause as surely as the sun rises each day  
So my love will never change  
And though the years may come and go  
My love will only grow and grow

Every day when the sun comes out

As surely as the sun
