

# Hanson, Boomerang

Somethin' special about you babe  
Maybe its your smile  
But when I see you  
You peel the dial

CHORUS:

oh Big bang it hit me like a boomerang,  
Light turns green, blood starts flowin'  
Big bang it hit me like a boomerang  
Light turns green and my heart starts pumpin'!

Maybe some how, in my make-believe world  
Maybe some how, you will be my girl  
And I understand there are other guys  
But when I see you, my blood pressure starts to rise!

CHORUS (x2)

Big bang buh dah bah bah duh bang! (x6)  
Big Bang, Big Bang Ow!

(SPOKEN):

I've seen girls in all shapes and sizes  
But baby, since I met you, you're the only one for me

CHORUS (x4)
