

# Hanson, Every Word I Say

You feel like liberation  
You give me new sensation  
You show me what I need and  
You are my life completed

Can't stop, can't break, who's driving?  
Sometimes there's no denying  
'Til today I feel I can't lose  
I'm letting go of what I knew

I want you for always  
I hear your name in every word I say  
I'm a fool and I don't care  
I hear your name in every word I say  
Every word I say  
Every word I say

Before you I was only  
What I let control me  
You are a revolution  
Against my own conclusions  
So today I feel I can't lose  
But I'm letting go of what I knew

Said, I want you for always  
I hear your name in every word I say  
I'm a fool and I don't care  
I hear your name in every word I say  
Oh no no no no no no no  
Oh no no no no no no no  
Oh no no no no no no no  
Oh no no no no no

And now I say goodbye to the way I used to be  
There is no room for question  
'Cause your name, it sets me free  
Yesterday's troubles harm me  
T-Today's are creeping in  
So let go of the world around me  
'Cause your love is all I need

I want you for always  
I hear your name in every word I say  
I'm a fool and that's okay  
I hear your name in every word I say

I want you for always  
I hear your name in every word I say  
I'm a fool and I don't care  
I hear your name in every word I say

Every word I say  
Every word I say  
In every word I say  
Oh no no no no no no no  
Oh no no no no no  
Oh no no no no no no no no no no  
Yeah!

I hear your name in every word I say  
I hear your name in every word I say  
I hear your name in every word I say  
I hear your name well all I hear is your name  
All I hear is your name

All I hear is your name  
And no one can take it away
