

Hanson, Follow Your Lead

Oh, I'll follow your lead
Oh, I'll follow your lead
Oh, I'll follow your lead
Oh, I'll follow your lead
Oh, I'll follow your lead
Oh, I'll follow your lead
You know, I'll follow you
Through the crossroads

Pick up your shoulders
You are not a child
Don't need no natural born soldiers
It's not that kind of fight

There is no water
That can wash off this disease
If you'll just stand up
Then I'll follow your lead

So, get up and make it known
Never take a chance alone
I'll be there whatever your crossroads

I know it will take some time
I know it's gonna take its toll
All you gotta do is show me
And I'll follow your lead

Oh, I'll follow your lead
Oh, I'll follow your lead
You know, I'll follow you
Through the crossroads

So pull off your blinders
And pick up the pieces
It only gets harder
The longer you deny

You will discover
You got all that you need
Leave fear where you're standing
And I'll follow your lead

So, get up and make it known
Never take a chance alone
I'll be there whatever your crossroads

I know it will take some time
I know it's gonna take its toll
All you gotta do is show me
And I'll follow your lead

Oh, I'll follow your lead
Now, I'll follow your lead
Oh, I'll follow your lead
I'll follow your lead

Oh, I'll follow your lead
Now, I'll follow your lead
You know, I'll follow your lead
No, no

We can build it up
Build it up

Build it up until it's strong

And we can build it up
Build it up
Build it up when you're wrong

We can build it up
Build it up
Build it up until it's strong

We can build it up
Build it up
Build it up when you're wrong

Build it up
Build it up

Build it up
Build it up

Build it up
Build it up

Build it up
Build it up

You know, I'll follow your lead
No, no

So, get up and make it known (well, I'll follow your lead, oh)
Never take a chance alone (I'll follow your lead, you know)
I'll be there whatever your crossroads (I'll follow your lead, I'll follow your lead)

I know it will take some time (oh, I'll follow your lead, oh)
I know it's gonna take its toll (I'll follow your lead, oh)
All you gotta do is show me (I'll follow your lead, I'll follow your lead)

So, get up and make it known (well, I'll follow your lead, oh)
Never take a chance alone (I'll follow your lead, you know)
I'll be there whatever your crossroads (I'll follow your lead, I'll follow your lead)

I know it will take some time (oh, I'll follow your lead, oh)
I know it's gonna take its toll (I'll follow your lead, oh)
All you gotta do is show me (I'll follow your lead, no, no)

Oh
