

Hanson, Leave It At That

One, two, three, yeah!

Do do do do doot doot doo do
Do do do do doot doot doo do
Do do do do doot doot doo do

Oh yea...

What does a walk in the park mean
How 'bout a kiss when we're driving
How much for the flutter in your heart
What does a scent of a rose say
'Cause if you look at it that way
You know it's gonna make you fall apart

You squeeze so tight whenever you hold me
Know that our hearts are right where they should be

Leave it at that
Don't look for ways to complicate and analyze it
Leave it at that
Or this will disappear before you realize it
I know you want to say it's love but let's just say it's close enough
Leave at that, oh

Do do do do doot doot doo do
Do do do do doot doot doo do
Do do do do doot doot doo do

Oh no what is it about me
That makes you think you should doubt me
Wonder where this song might lead
Why do you have to explain it
'Til there is nothing remaining
Isn't "happy" all you need

Look in my eyes when we're dancing slowly
Know that our hearts are right where they should be

So leave it at that
Don't look for ways to complicate or analyze it
Leave it at that
Or this will disappear before you realize it
I know you want to say it's love but let's just say it's close enough
Leave at that, oh

Don't read my mind
Don't search for signs
Don't waste your time
Just looking for words between the lines
Baby don't you feel
This love's so real
By now all we have to do is

Leave it at that
Don't look for ways to complicate and analyze it
Leave it at that
Or this will disappear before you realize it
I know you need to say it's love but let's just say it's close enough
Leave at that, oh

Do do do do doot doot doo do
Do do do do doot doot doo do
Just leave it at that

Do do do do doot doot doo do
Do do do do doot doot doo do
Just leave it at that
