

Hanson, Look At You

Look at you baby
Standing in the shadows wondering what I'm doing here
Wishing something would happen, maybe I could disappear
She walks in with that look in her eye
Somehow she doesn't even have to try
Just kick off your shoes, get on the floor
This is what we came here for
Ooooooh, you've got to break it down
You've got to get it out
Just get on the floor
Everybody wonders when they look at you
Everybody wonders what you're gonna do
You got it all wrapped up you do
Everybody wonders when they look at, look at you
Look at you baby, look at you baby
In the middle of the dance floor lights shinin' in my face
Twistin', shoutin' there was no doubt people dancing all over the place
Out of the corner of my eye she said why don't you come and give it a try
Get on the floor, just kick off your shoes
You ain't got a thing to lose
Ooooooh, you've got to break it down
It's time to get it out
Just get on the floor

(Repeat Chorus)

Look at you, look at you baby
Look at you, look at you baby
Look at you, look at you baby
Ooooooh, Whoooooaa, Whoooooaa, baby
Look at you, look at you baby
Look at you, look at you baby
Look at you, look at you baby
Ooooooh, Whoooooaa, Whoooooaa, baby
I was standing in the shadows wondering what I'm doing here
Wishin' something would happen so that I could disappear
She breaks the silence with a move of her hips
You better hang on don't want to lose your grip
Kick off your shoes, get on the floor
This is what we're waiting for
Ooooooh, you've got to break it down
You've got to get it out. Just get on the floor.
